

## Lab CSS3

**Due: 11:59 pm, Monday, September 25, 2017. Submit through Canvas.**

### Instructions:

- **No late submission** will be accepted.
- Your web page **MUST run** in any major browser without error.
- The submission should be one HTML file.
- Use CSS3 + dash + your full last name (with first letter capitalized and all other lower case) + capitalized first letter of your first name as the name of the HTML file. No space or other special character is allowed in the name. For instance, for me, the name of my webpage should be **CSS3-DingW.html**. **Violation of naming requirement will result in 3 points cut.**
- At the very beginning of the HTML file, using the HTML comment tag, i.e. `<!-- comments -->`, you should write your full name, the course number and course name (i.e. COP 3834C-01 Web Application Development), and the name of lab, e.g. CSS3. **Without this information, 5 point will be deducted.**

Subject

Write a complete webpage using HTML and CSS that

- 1) Must use pseudo selector hover.
- 2) Make a  $3 \times 3$  colorful interactive table. The background color of a cell turn to a pre-defined color as specified in the table below when the mouse move over this cell. The default background color is white.

red	green	blue
green		red
red	blue	green
